BANK ON FLORIDA
local initiatives benefit everyone

HERE'S HOW

State of Florida benefits include:

- More disposable income for Floridians to spend in Florida rather than with out of state alternative service providers
- Less need for already-strapped human services dollars

Community benefits include:

- Improved crime rate since residents no longer keep cash at home
- More opportunities for asset building service providers to improve their clients' financial stability
- Overall community economic vitality since citizens are more economically stable

Financial Institution benefits include:

- Access to the untapped market of the un- and under-banked

Individual Floridian benefits include:

- More disposable income, protected income, and increased wealth-building opportunities

A statewide collaboration of organizations holistically focused on providing life-enhancing services to Floridians.

Costs to Communities

- When their children are ill, employee absences cost business as much as \$12 billion annually.
- 350,000 children in the US are too sick to attend school or childcare every day.
- Mothers are absent from their jobs from 5 to 29 days per year caring for ill children.

Did you know...

- The vast majority of uninsured children in Florida (87.8%) come from families where at least one parent works.
- More than two-thirds of uninsured children (71.4%) in Florida live in households where at least one family member works full-time, year-round.
- More than 60% of Florida's children live in working-poor families.

Who's at Risk?

- 18 % (756,770) of all children in Florida are without health insurance.
- It is estimated that:
 - 24.6% of all Hispanic children are uninsured.
 - 18.0% of all African-American children are uninsured.
 - 17.9% of all Asian and Pacific Islander children are uninsured.
 - 12.4% of all non-Hispanic white children are uninsured.
 - 24.3% of low-income children are uninsured.

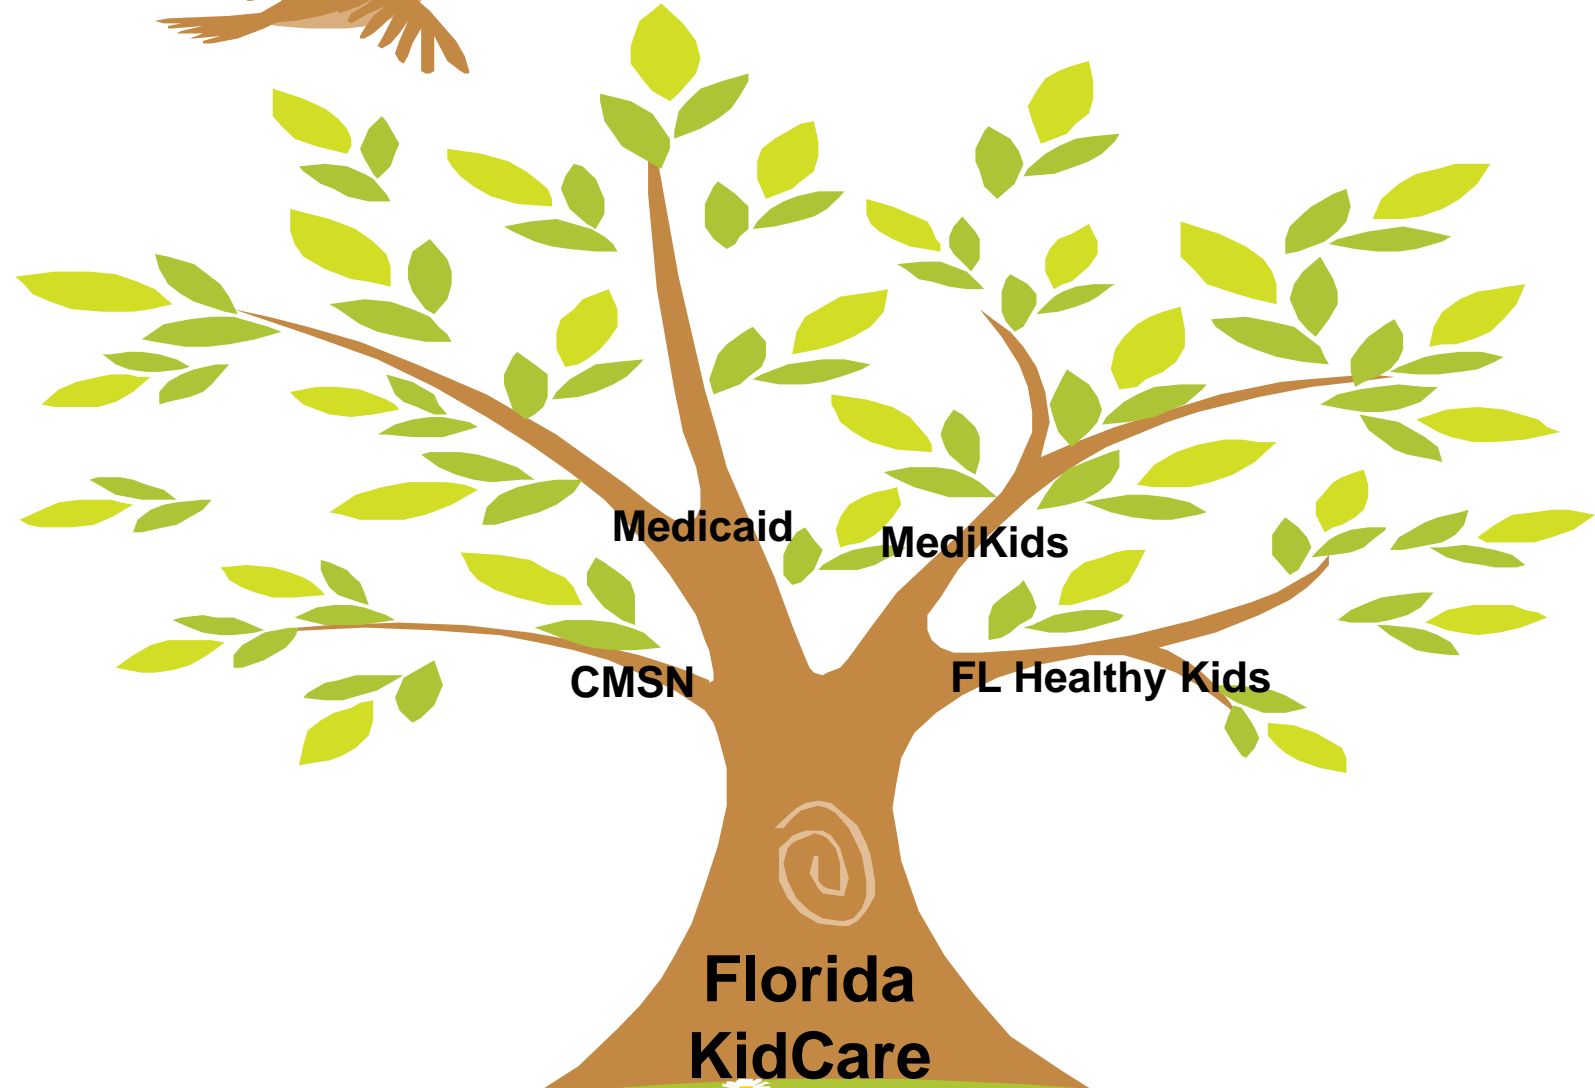

Hidden Impacts

Hidden Health Tax

- Uncompensated care is covered with higher rates to the insured.
- Added more than \$1,000 to family premiums in 2008

Small Business

- 36% of employees in small firms spent more than 10% of their household income on out-of-pocket medical expenses
- Small businesses pay up to 18% more than large firms for the same health coverage
- Price is the single greatest barrier to enrolling employees into health insurance

Strategic Outreach Initiatives

Individuals and Families

Community-Based Organizations

Businesses

Health Care Providers

Military and Veteran Support Services

Community Outreach Partnerships

- Introduce organizations to a valuable health coverage program to increase awareness
- Reach large numbers of eligible, working families
- Establish new communication channels and resources to engage the community

Benefits to Communities

- Children with a regular source of health care are more likely to get well-child checkups and have fewer preventable diseases.
- Parents of children who have fewer sick days home from school are less likely to miss work.
- Quality of life is improved for children in the community.
